

## Spectraplan D Membrane

### Product Details

<b>Thickness</b>	1.5mm
<b>Length</b>	10m, 25m
<b>Width</b>	0.75m
<b>Colour</b>	Light Grey
<b>Material</b>	TPE
<b>Reinforcement</b>	None

## Introduction

- Non-reinforced TPE membrane for detailing on Spectraplan roof systems
- Offers excellent flexibility allowing the material to be formed easily into intricate details ensuring the roof installation is fully waterproofed
- Adhered to suitable substrates using Spectraplan TPE Contact Adhesive
- All overlaps and joints are heat welded using suitable hot-air welding equipment.
- Used to form complex details such as pipe penetrations or external corners
- Can be used to waterproof the joints between Spectraplan membrane coated metal flashing sections and gutter joints

### Features & Benefits

- Excellent flexibility for complex detailing
- Excellent UV resistance and durability
- Excellent mechanical properties and product performance
- Efficient and safe installation
- Secure seam welding quality

## Spectraplan D Membrane Roll Sizes

Colour	Width	Length	Item Number
Light Grey	0.75m	10m	44440008
Light Grey	0.75m	25m	44440005
