

IKO Adjustable Paving Support Pad

Product Details

IKO Adjustable Paving Support Pads are designed to be used where fine adjustment in height is required in order to obtain a level paved area on a roof deck. This is normally the case where the roof has been laid to falls for drainage, or where the deck is uneven.

Features & Benefits

- IKO Adjustable Paving Support Pads are suitable for use with almost all conventional paving and decking systems
- Infinitely adjustable
- Manufactured from heavy duty, chemical resistant, solid polypropylene
- Certified compression test data available on request
- Suitable for almost all conventional paving and decking systems
