

## IKO Strike PVC

### Hot Air Weldable Lightning Conductor Clip

#### Product Details

Item Number	30075019
Tape Size	25mm x 3mm
Box Quantity	50
Colour	Mid Grey
Material	PVC

#### Introduction

IKO Strike PVC lightning conductor clips are hot air welded to the surface of an Armourplan membrane roof at 1m centres. The IKO Strike clip is a combination of a high quality rigid plastic clip attached to a 100mm x 100mm section of polyester reinforced Armourplan membrane. The IKO Strike clip is designed to take uncoated lightning conductor tapes with a section of 25mm wide x 3mm thick. This allows a cost effective and tidy solution to restraining rooftop lightning protection systems.

#### Features & Benefits

- Excellent UV resistance and durability
- Excellent mechanical properties and product performance
- Efficient and safe installation
- Secure seam welding quality

#### Further Product Information

Full product literature, health & safety and technical sheets are available as downloads from our website: [www.ikogroup.co.uk](http://www.ikogroup.co.uk) or on request by email: [marketing@ikogroup.co.uk](mailto:marketing@ikogroup.co.uk)

Whilst every care is taken to see that the information given in this literature is correct and up to date it is not intended to form part of any contract or give rise to any collateral liability, which is hereby specifically excluded. Intending purchasers of our materials should therefore verify with the company whether any changes in our specification or application details or otherwise have taken place since this literature was issued.

Company Registered in England No. 2678296 – Registered Office: Appley Lane North, Appley Bridge, Wigan, Lancashire, WN6 9AB
